

CO

Achieving genuine sustainability requires consistently taking numerous small steps over an extended period to generate tangible and meaningful impact.

## Why ESG Disclose

The current ESG software and support services market is fragmented, with no one tool delivering an end-to-end solution from understanding which regulations businesses need to comply with to data collection, compliance and developing ESG skills amongst staff.

------

## We are **the only** collection of solutions and partnership **ready to activate** and **execute** a **successful ESG Ecosystem** for the nation.

- Simple, intuitive onboarding and set up of ESG Disclose.
- Enables sustainable decision making using live data.
- Provides ESG data access to internal and external sources.
- Automatic identification of ESG regulations that applies based on the profile of each client
- Takes the user through a seamless process with access to all major ESG Frameworks
- Provides automated insight into overlapping regulatory disclosures.
- Ability to bespoke the disclosures and weighting.
- ESG Disclose can be used by clients of all sizes, industry sectors and locations

### Why ESG Disclose Software Solution

- <sup>Q</sup> Many of the current software solutions merely consist of basic workflows that come with preconfigured rules and risk indicators, which often fail to resonate with many clients. In contrast, ESG Disclose software offers the end user the ability to personalise the software according to their specific ESG rules or checklists, as well as their own risk ratings.
- <sup>Q</sup> Our flagship product, ESG Disclose, boasts an exceptional and unparalleled feature: a unique Al roadmap. Developed meticulously by our team of experts, this advanced AI technology enables automated intelligent analysis of data against ESG regulations and checklists. By harnessing this capability, our clients can significantly enhance their ability to meet ESG data collection and reporting requirements without the need to recruit many ESG subject matter experts (SMEs).
- ESG Disclose is designed to accommodate companies of any size, recognising that ESG management is essential for all. Our software is accessible to businesses regardless of their scale, and our cost points outshine any competition in the market. We provide unmatched value, ensuring that ESG Disclose is within reach for all organisations.

## ESG Disclose: More Than Just Software, Its An Ecosystem of ESG Solutions

Enabling our clients to make sustainable decision:

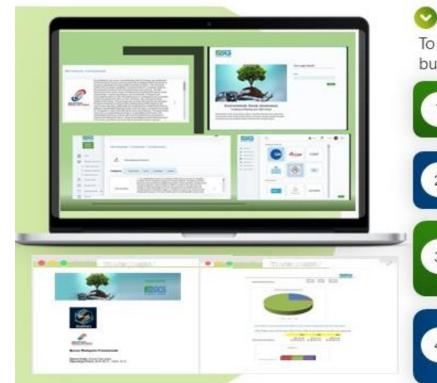

Continuous tracking and quantifying of ROIs delivered to Clients

**Bursa MY ESG** Disclosure Readiness Assessment **Tool**\*

#### ESG Gap Analysis & Readiness

To help inform your next steps / action on your business / organisations ESG Journey.

We will introduce and deploy an ESG GAP Analysis & Readiness assessments to you.

This will help us understand some key data points for your businesses ESG Readiness

We will use these data points to create a report based on standards such as Bursa Malaysia / GRI for your business / organization.

Within 1 Month (during this programme period) we will provide you a report and debrief you on your ESG Gap Analysis and Readiness.

Introducing the Bursa My ESG Disclosure Readiness Assessment, a powerful tool meticulously designed by our team of ESG subject matter experts (SMEs). Specifically aligned with the Bursa Malaysia Disclosures, this assessment guides users through a comprehensive set of questions required for compliance with Malaysia's formal ESG Disclosure regulations starting from December 2023

\*Our bespoke Readiness Assessment is a proven model that can be easily replicated in other territories worldwide. By seamlessly replacing Bursa Regulations with equivalent local or international disclosure requirements, we ensure a smooth and seamless transition to compliance. The success of our Readiness Assessment lies in its adaptability. We understand that every region has its own unique set of regulations and disclosure requirements. With our comprehensive framework, we can swiftly tailor the assessment to match the specific mandates of any territory, enabling organizations to effortlessly navigate the compliance landscape.

## How it works

Knowing your current state to take action to ensure compliance from December 2023

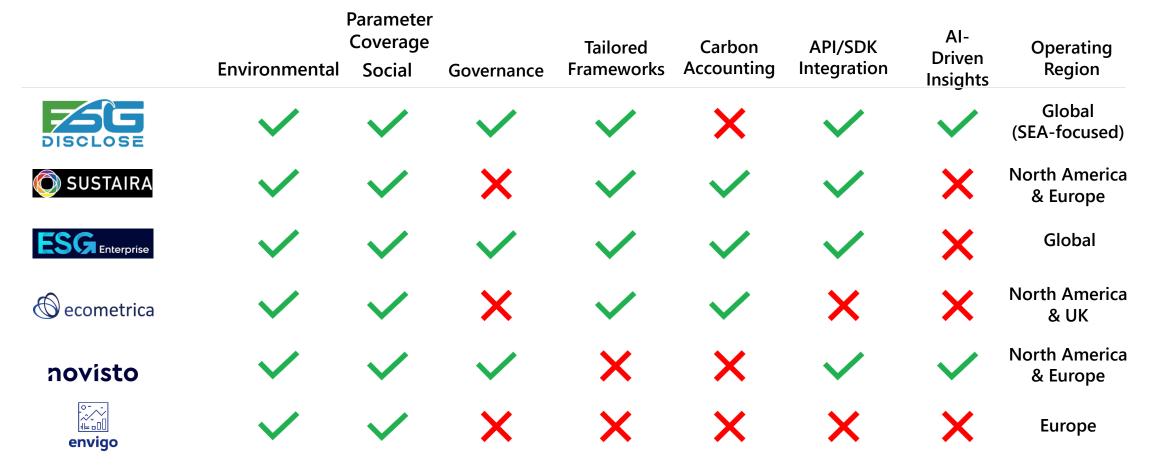

In under four weeks, our tool guides you through a straightforward and smooth process, prompting you to respond to the Bursa ESG Disclosures. It assists you by offering illustrative data examples that you can input to fulfil the disclosure requirements. Our team of ESG subject matter experts thoroughly examines this information and generates a comprehensive gap analysis report. This report identifies the areas that require attention and must be addressed before December 2023.

## A snapshot of the global ESG ecosystem shows a variety of key players across all streams
