- Benefits of integrating sustainability into the supply chain
- Regulatory and stakeholder pressures driving sustainability initiatives.
- Key Elements of Supplier Sustainability
- Environmental sustainability: energy consumption, waste management, carbon footprint, etc.
- Social sustainability: labour practices, human rights, community engagement, etc.
- Economic sustainability: ethical sourcing, fair trade, economic development, etc.
- Supplier Assessment and Selection
- Criteria for evaluating supplier sustainability performance
- Tools and frameworks for supplier assessment
- Developing a supplier sustainability scorecard
- Supply Chain Mapping and Transparency
- Understanding the end-to-end supply chain
- Mapping suppliers and identifying sustainability risks
- Enhancing transparency and traceability
- Engaging Suppliers in Sustainability
- Building a collaborative relationship with suppliers
- Communicating sustainability expectations and goals
- Providing support and capacity building to suppliers

Enabling our clients to make sustainable decisions

Day 2:

- Supplier Sustainability Improvement Strategies
- Identifying areas for improvement within the supply chain
- Developing action plans for sustainability enhancement
- Implementing performance monitoring and evaluation mechanisms
- Supplier Collaboration and Partnerships
- Collaborative initiatives for sustainability improvement
- Sharing best practices and lessons learned
- Engaging suppliers in innovation and continuous improvement
- Supplier Code of Conduct and Auditing
- Developing a supplier code of conduct
- Conducting supplier audits and assessments
- Remediation and follow-up actions
- Reporting and Communication
- Sustainability reporting frameworks and standards
- Communicating sustainability performance to stakeholders
- Engaging customers and investors through sustainability initiatives
- Case Studies and Practical Exercises
- Analysing real-life case studies of successful supplier sustainability management
- Conducting practical exercises to apply concepts learned.
- Group discussions and knowledge sharing sessions.

The training program will also include guest speakers, interactive discussions, and hands-on exercises to ensure practical application of the concepts learned. Participants will receive training materials, resources, and a certificate of completion at the end of the program.

Note: This training program can be customised based on the specific needs and requirements of the organization or industry.
