

# Procurement & Supply Chain ESG Readiness Assessment

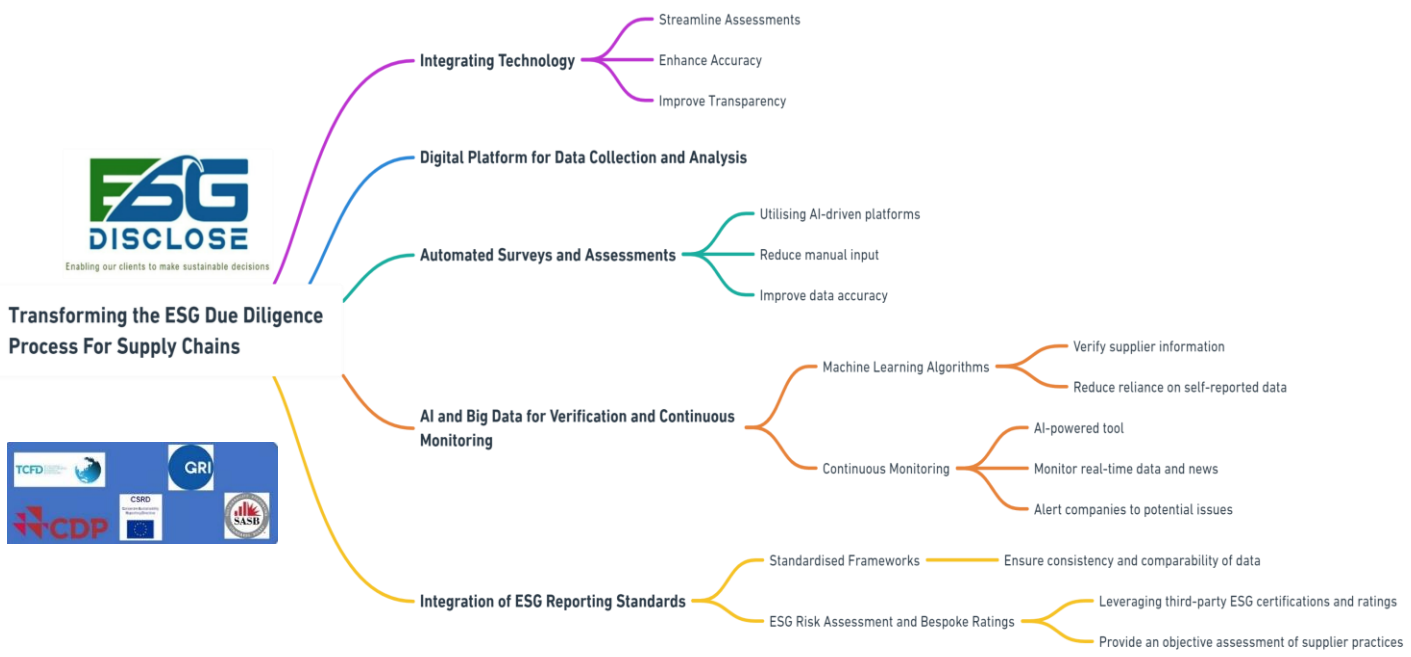

**70% of Your ESG Impact (Scope 3) Lies Hidden. Unmask It with the AI-Powered Procurement & Supply Chain Assessment.**

ESG considerations have become central to companies, affecting not only internal operations but also supplier relationships. However, the current supplier evaluations are fraught with challenges and risks, necessitating a significant transformation to leverage technology and reduce reliance on manual processes and anecdotal evidence.

## Introducing the ESG Disclose AI-powered ESG Readiness Assessment.

## Your supply chain holds the key to unlocking a sustainable future.

Gain transparency and control with an efficient, data-driven approach prior to developing interventions. Our assessment cuts through the noise, exposing potential ESG risks and opportunities within your supply chain.

### Benefits:

- **Unmask hidden impacts:** Identify and address ESG risks across your suppliers.
- **Boost efficiency:** AI streamlines the process, eliminating manual data collection.
- **Gain a competitive commercial advantage:** showcase your commitment to responsible sourcing.
